Professional Summary

Frontend Developer with over 2 years of professional experience specializing in **React.js** and modern JavaScript ecosystems. Proven track record of building scalable, high-performance web applications with a strong focus on clean component architecture, RESTful API integration, and optimizing Core Web Vitals. Passionate about creating intuitive user experiences and contributing to collaborative, growth-oriented teams through technical excellence and proactive problem-solving.

Technical Skills

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), TypeScript (Basics), Responsive Web Design
- **Libraries & Frameworks:** React.js, Redux Toolkit, React Router, Bootstrap, Tailwind CSS, Material UI
- **Core Competencies:** Component-Based Architecture, State Management, API Integration (Axios/Fetch), Performance Optimization, Cross-Browser Compatibility, SEO Best Practices
- **Tools & Technologies:** Git, GitHub, VS Code, Webpack, Vite, Jira, Firebase, Chrome DevTools, NPM/Yarn

Work Experience

UI Developer (Frontend – React.js) — FNP (Ferns N Petals) Mar 2025 – Present

- Developing scalable and reusable React components, enhancing code maintainability and team development velocity.
- Integrating complex REST APIs and optimizing data rendering logic to achieve faster load times and UI responsiveness.
- Monitoring and improving Core Web Vitals (CLS, LCP), resulting in better search engine visibility and user retention.
- Collaborating with design, SEO, and backend teams to translate business requirements into production-ready features.

Web Developer — CodersVoice, Kolkata Jan 2024 – Jan 2025

- Engineered responsive web pages using modern HTML, CSS, and JavaScript, ensuring a consistent experience across all devices.
- Optimized website performance by 25% through asset compression, code splitting, and implementing lazy loading techniques.
- Ensured 100% cross-browser compatibility by identifying and resolving CSS/JS discrepancies across legacy and modern browsers.
- Debugged and resolved critical UI/UX issues, significantly improving the overall user journey and navigation flow.

Key Projects

- **MelodyStream (React-based Web App):** A modern music streaming platform built with React.js. Implemented reusable component design and optimized state-managed UI rendering for a fluid, high-performance user experience.
- **Spotify Clone (JavaScript Application):** A fully functional music player featuring playback controls, playlist management, and dynamic search functionality using vanilla JavaScript and advanced DOM manipulation.

- **Portfolio Website:** A highly responsive personal showcase built with React.js, featuring optimized assets, smooth animations, and a clean UI to highlight technical skills and professional projects.

Education

- **B.Tech. in Computer Science & Engineering** 2019 – 2023
Roorkee College of Engineering, Uttarakhand
- **Senior Secondary (12th)** 2017 – 2019
S.S. High School Basantpur, Siwan
- **Secondary (10th)** 2017
High School Basantpur, Siwan

Certifications & Achievements

- **Certifications:** Front-end Web Development, React JS for Web Development (Udemy), JavaScript for Everyone (ES6+).
- **Achievements:** Recognized for strong problem-solving skills at FNP; Optimized project timelines through proactive requirement gathering; Improved team collaboration through clear technical documentation.
